RE: Soaring Eagle Lodge @ Snowshoe, WV
Branch Project No. 70506

On behalf of Branch and Associates, Inc. I would like to extend our thanks for your exemplary performance on the Soaring Eagle Lodge Project in Snowshoe, West Virginia. The commitment of your company, workers, and management helped lead the project to successful completion. The "Can Do" philosophy with which all members of your organization approached the project set an example for others to follow, and created the high moral and winning attitude that surrounded the project. We value the relationship that we have with your organization, and the clear benefit that we realize when we work together on projects. We look forward to the next opportunity that we have to work together. We will be sure to notify you of all prospective projects that we are pursuing in your area with hopes that through our mutual efforts we will realize similar successes in the future.

Very Sincerely and Respectfully,

BRANCH AND ASSOCIATES, INC.

CONSTRUCTION MANAGEMENT/GENERAL CONTRACTING

August 31, 2006

Weum Moon
East Coast Trim & Siding
413 South Crain Highway
Glen Burnie, MD 21060

Dear Weum,

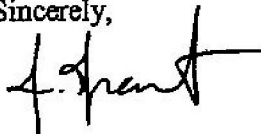

I wanted to take the time to personally thank you and your company for all the hard work and consistent effort you have exhibited during the construction of the Kenilworth Avenue Apartment project. Your ability to meet the schedule, provide us with quality workmanship and your attention to detail has been noticed and is greatly appreciated.

Both Charlie Eaton and Tony Muniz have given me a list of thirteen subcontractors and/or suppliers that have made things run smoothly for them and your company was on that list.

Please keep up the good work and remember that keeping the Superintendent happy and making them look good is a great way to get the subcontract on their next project.

Thanks again.

Sincerely,

Jefferson G. Grant

Mr. Yeum Moon

Eastcoast Siding, Inc.
9693-K Gerwig Lane
Columbia, MD 21046

Reference: Easter Seals Intergenerational Facility and Administrative Offices
FCC Project No. 05-25-0080

Subject: Outstanding Exterior Siding and Fypon Workmanship

Dear Mr. Moon:

My apologies for the tardiness in writing this letter you and your company to express my utmost thanks and appreciation on a job well done.

I have to commend you on your field crews on their workmanship and attention to detail that they had while constructing and installing the exterior skin at the Easter Seals project. Not only did your crews do a excellent job they were a true team player on the project and adjusting to overcome many obstacles as well as assist with the technical knowledge of the materials they were dealing with to also assist the architect to make final decisions on the appearance of the building.

I look forward to working with you and your company in the near future.

Sincerely,
Forrester Construction Company

RE: Brightview at Catonsville

Dear David,

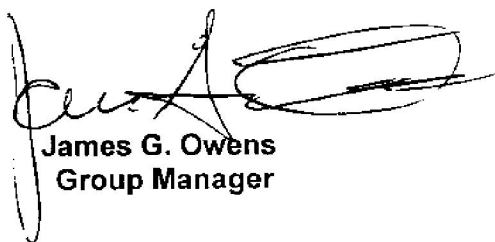

One of the principles at Whiting-Turner is that we not only satisfy our clients but also absolutely "delight" them. Without a doubt, the owner at Brightview @ Catonsville, The Shelter Group, was delighted and this could not have occurred without your firm's commitment and dedication to the project.

Thank you for all the hard work of you and your staff in building this facility. We would especially like to thank you, Danny, Moon and all your men for your extra effort on this project.

Whiting-Turner would not have the past success or future opportunities without quality subcontractors like East Coast Siding.

Respectfully,

THE WHITING-TURNER CONTRACTING COMPANY

President
Eastcoast Trim & Siding
P.O. Box 1373
Glen Burnie, MD 21060

Dear Eastcoast President,

You recently completed a vinyl siding project for us in the Moorings on the Magothy condominium community in Arnold, Maryland. We, the Board of Directors of our condominium association, are writing to compliment your work.

We felt you dealt fairly with us throughout the project and provided a professional product at a reasonable price. During the project, your workers interacted very well with our unit owners, correcting problems as they occurred. We wish to identify two individuals who went out of their way to do the best job possible:

John Wolfrum (director of operations)
Omar (on site supervisor)

The finished project is beautiful and satisfies our requirements. We would imagine that working for many individuals (our condominium manager, board of directors, unit owners) would be much more difficult than a single home owner. Yet, your crews were always very professional and courteous in dealing with all of us, even on those hot, humid days when we provided some of our layman ideas. We look forward to working with you during our warranty period.

Feel free to use this letter as advertising for future customers. Thanks again for a terrific product at a reasonable price.

Sincerely,

The Moorings Board of Directors:

John Ryan, President

Bette Rafferty, Vice President

Jim Meacham, Treasurer

Denny Whitford, Secretary

Dick Hower, At Large

Copy to: Bay West Management, Inc. (Attn: Ralph Hudson)

Date: April 2012
Subject: Letter of Recommendation
Contractor: Eastcoast Exteriors
9693 Gerwig Lane # A,
Columbia, MD 21046

To Whom It May Concern:

Eastcoast Exteriors recently completed a large scale siding contract for our community, Kent Cove Condominiums, located in Stevensville, Maryland. Our community was constructed in the 1970s and consists of 16 quadplex units with multiple level roofs. Eastcoast Exteriors stripped existing cedar siding from the exterior of all units and installed house wrap, foam insulation, vinyl siding and new downspouts and gutters.

Eastcoast Exteriors installation crew worked efficiently with minimal disruptions to the residents throughout the course of the project. They maintained all of their equipment, materials, and dumpster in a manner to preserve parking and minimize daily impacts to the community. They cleaned up impacted areas daily of all materials and debris. When issues did occur, as they will on a project of this scale, Eastcoast Exterior and their crew worked diligently and promptly to address matters to positive outcome.

The work was professionally done on time and on budget with only minor costs overruns to address unforeseen conditions. Eastcoast Exteriors worked with the community to address these unforeseen conditions and developed repairs methods to professionally address the issues while working to minimize the costs to the community.

I would highly recommend Eastcoast Exteriors for any such related work. They were a pleasure to deal with and required minimal support throughout the project.

Sincerely,

Patrick Hager
President
Kent Cove Condos

Subject: Praise for East Coast

Board Members & Gladys,

I cannot thank you enough (again, as when our east wall was resided last summer) for choosing East Coast to reside our A building. The workmen started on my kitchen side of A building this morning. The foreman and a couple of his crew members helped me move my heaviest plants to my back patio without even being asked to do so.

On just this first day, they have already removed the old siding, installed new plywood and affixed the Tyvek Wrap on the whole 2016 six-pack. When the crew left at 6:30 p.m., they left my kitchen patio spotless and accessible, along with the rest of their work area. I am amazed both at the speed and care with which they work.

Because the men were so helpful, I wanted to do something for them. I called the office and Bernice suggested I get them some bottled water and iced tea, so I bought them a case of each, which turned out to be a great suggestion. Both cases were almost gone at the end of their workday, so I'd like to suggest that our neighbors in 2014, 2012, and 2010 consider doing the same.

Thanks again for the great choice of East Coast Siding. They are true professionals and we can anticipate that A building will be resided without a hitch.

Lastly, I am so happy and relieved that we are using cedar siding on our buildings. J & E look great and we will, too! Nancy

Subject: Some pictures and my thanks
Gladys, Kirby, and David,

Thanks so much for your diligence in making the siding of our A building east-facing wall a top priority. I know Kirby has taken some pictures, too, but I thought you might like to have my pictures for your archives. It's a wonder the wall withstood any of the major storms we've experienced!

Special kudos to East Coast Siding, which employs the most professional, hard-working, diligent crew I've ever seen. They worked from 8 a.m. until after 7:30 p.m. every day (except on Friday when they left around 6; after all—it was Good Friday!) When they accidentally cut the cable wire to my kitchen TV, they repaired it within a couple of hours and saved me a visit from a Comcast repair person.

Each evening, they've left the area in pristine condition.

See some more of my comments below beside some of the pictures.

My dining room window was so loose that all this debris came right in. The crew squared up my window (took about 45 minutes) and I'm hoping for no leaks or flooding for the first time since Hurricane Isabel in 2003! And while I was out for a brief walk, they cleaned up all the debris on my window sill and carpet. I was amazed!

new plywood was up before I snapped a photo of the water-stained mess.

Special kudos to Gladys for finding East Coast Siding and to Kirby for his diligence this week in monitoring the progress of the work. It looks like our job will be complete (except for staining or painting) in a day or two.

Happy Easter and thanks again for hiring an incredible company to repair so many years of damage and restore our community. Nancy
